

### **Tinaroo Shire Roads.**

(To the Editor "Post" and "Herald.")

Sir.—A little hint as to what the public think of the condition of the roads in the Tinaroo shire might stir the council into some activity. It is fully apparent that without a jog from the outside public the council will not improve the condition of things. To anyone wishing an object lesson on how not to do things, our roads are a splendid example. With the sole exception of the Atherton-Tolga road anywhere you care to go in the shire, all the weeds and burrs in creation are having an unchecked holiday. On most of our roads it is impossible for two vehicles to pass, unless one of them takes a grave risk and drives into the wilderness of weeds which in

many places reach a height of six feet. This condition of things, already deplorable, will be greatly aggravated when the weeds begin to seed. When that happens, all horses and cattle on the roads, also pedestrians, become compulsory carriers of seeds, which are then disseminated throughout the district. Not only this, but it is impossible to keep land in the vicinity of our so-called roads, free from weeds. *This is a condition of affairs which should not be tolerated for an instant in any shire.* As for their condition after a shower of rain, well, words cannot describe it. As an illustration, after an hour's rain lately a car driver found it impossible to reach his destination on one of our main (save the mark) roads. Trusting that this state of affairs will be soon remedied—  
Yours etc.,

**H. HANNUS.**

Tolga.
